

Here is the NBCT statute.

22-8-23.4. National board for professional teaching standards; certified teachers program units.

The number of program units for teachers certified by the national board for professional teaching standards is determined by multiplying by one and one-half the number of teachers certified by the national board for professional teaching standards employed by the school district or charter school on or before the first reporting date of the school year and verified by the department. Department approval of these units shall be contingent on verification by the school district or charter school that these teachers are receiving a one-time salary differential equal to or greater than the amount generated by the units multiplied by the program unit value during the fiscal year in which the school district or charter school will receive these units.

History: Laws 2003, ch. 144, § 2; 2003, ch. 152, § 9; 2006, ch. 94, § 14; 2010, ch. 116, § 5.

Stipend 2016-17

The actual amount calculation is; one teacher is equal to 1.5 units. Then the units are multiplied by the current unit value which is \$4,040.24.

So for 2016-17 school year it would be:

1 Teacher x 1.5 = 1.5 then

1.5 x the Unit Value of \$4,040.24

1.5 x \$4,040.24 = **\$6,060.36** This is the amount for NBCT stipend 2016-17.
